

What type of verses has God Almighty provided for the guidance of mankind?

By: Mohammad Ali Ansari

God Almighty has provided two types of verses for the guidance, teaching and warning of mankind; one is the compilation verses that are gathered in the heavenly books and in their complete form in the Holy Quran, and the other is the creation verses that appear in the heavens and the earth. These verses, which shine in the soul of man and the world around him, cannot be counted, and by walking and thinking about them, a person realizes the greatness of the Almighty Creator:

«سَتُرِيهِمْ آيَاتِنَا فِي الْأَفَاقِ وَ فِي أَنفُسِهِمْ»

Soon We will show them Our signs in the world around them and in their own souls.

The effect and result of the awareness of these verses is such that if a person looks at them with a realistic eye, he sees the hand of God's grace and greatness in their creation and becomes certain of His existence.

God says in the Holy Quran about the effect of His verses in providing certainty:

«و فِي الْأَرْضِ آيَاتٌ لِلْمُوقِنِينَ * وَ فِي أَنفُسِكُمْ أَ فَلَا تُبْصِرُونَ»

And on the earth are signs for those who have certainty, and in yourselves; will you not see?

In the Holy Quran, God introduces His creational verses in the realm of inanimate objects, plants, animals, the sky, the earth, and the sea in about 800 verses, and considers them as signs of the grace and greatness of the Almighty Creator.

How many scientists have spent their years understanding a part of this amazing nature and have made others benefit from their observations, experiences and knowledge. Despite all the provisions that God has provided for guiding people, most people do not look at the divine verses from a monotheistic perspective and use them only to gain more pleasure and more material enjoyment. Most people pass by the divine verses without thinking and reflecting, but they are unaware of their truth, their essence and their connection with God.
